

Industry Partnership for Energy

Industry Partners are select Member companies of the World Economic Forum that are actively involved in the Forum's mission at the industry level. With privileged access to the Forum's multistakeholder networks and experts, partnership brings visibility and insight to strategic decision-making on the most important industry and cross-industry related issues. This access and insight allows Partners to contribute to leading change in global and regional issues and engage in action to support corporate global citizenship.

Partnership Highlights

The Energy Community frames multistakeholder projects on themes such as Smart Grid, Energy Poverty, Scaling Up Renewable Energy and Energy Security. Over the year, Partners contributed to a broad portfolio of projects and actively participated in numerous working groups and task forces with key public officials and other constituents. Highlights include:

- **Energy Summit 2009:** With CEOs of Partner companies, three heads of state, energy ministers and select experts, held during the Summit during the World Economic Forum Annual Meeting in Davos-Klosters. Focused on oil and gas geopolitics and impacts of the financial crisis on the energy sector
- **Energy Security Roundtable:** 2009 in Brazil, co-hosted by José Sergio Gabrielli de Azevedo, President and Chief Executive Officer. Petrobras, the roundtable focused on energy security challenges in Latin America
- **Accelerating Smart Grid Investments:** Launch of the report in July 2009
- **Energy Vision Report:** Launch of the report *Thirsty Energy, Water and Energy in the 21st Century*
- **Energy Poverty Action:** The Development Bank of Southern Africa (DBSA) hosted the Energy Poverty Alliance Management Unit (EPAMU). Both the Energy Council and the World Business Council joined EPA as Network Partners to facilitate broad engagement with the private sector to reduce energy poverty in Africa and elsewhere

Industry Partnership Privileges

Partnership offers privileged access to the Forum's networks across business, government, academia and non-governmental organizations for the organizations' Chairman/CEO and senior leadership team to identify issues that can benefit from collaborative action bringing together key leaders to create the necessary change. This is achieved through:

- Participation in community meetings
 - Invitation to exclusive Governors Meeting (Chairmen/CEOs only) during the Annual Meeting in Davos-Klosters
 - Invitation for a second board-level executive at the Annual Meeting in Davos-Klosters
 - Invitation to the Annual Meeting of the New Champions with up to two registrations for board level executives
 - Free access to exclusive Industry Partnership Meetings for heads of strategy, heads of communication or public affairs and other senior executives
 - Free access to exclusive Regional Meetings for regional heads or other senior executives
- Participation in initiatives and projects
 - Leadership positions within industry projects
 - Priority access to cross-industry projects (e.g. scenarios, risk analysis) and regional meetings
- Engagement in Global Agenda Councils
 - Based on individual expertise, an Industry Partnership offers even deeper involvement through participation in the Forum's Global Agenda Councils, which create solutions to the most important issues on the world's agenda

Who can participate?

Leading Energy industry members of the global business community, who are committed to the mission of the World Economic Forum, can participate. Industry Partnership provides opportunities for senior executives from these companies to engage in Forum activities throughout the year. The following executives play key roles:

• Chairmen/Chief Executive Officers	• Board Members
• Heads of Region	• Heads of Strategy

44 Industry Partners

ABB	Exxon Mobil	RusHydro
Applied Materials	Fluor Corporation	RWE
BC Hydro	Fortum	Sasol
BP	GDF SUEZ SA	Saudi Aramco
Centrica	GE	Shell
CERA	GridPoint	Siemens
Chevron Corporation	Iberdrola	SK Corporation
Duke Energy	Kuwait Petroleum Corporation	Socar
EDF	Lukoil Oil Company	StatoilHydro
EGL	Oerlikon	Tokyo Electric Power
EnBW	Pemex	Total
ENI	Petrobras	Vattenfall
E.ON	Petronas	Vestas Wind Systems
Eskom	Reliance Industries	Xenel Group
Essar Global	Renova	

Projects and Initiatives

Energy Security Roundtable	Thought leadership engaging business and government decision-makers to build a joint understanding of the new energy security paradigm
Energy Poverty Action	A public-private partnership to deliver business best practices to reduce energy poverty
Scaling Up Renewables	A cross-industry dialogue series on strategies to scale up renewable energy and energy efficiency
Smart Grid	A workstream focusing on accelerating smart grid investments making electricity systems more efficient, resilient and smarter
Repowering Transport: Energy & Mobility	A cross-industry project with the automotive sector on the future of transport focusing on electric vehicles and cleaner fuels
Copenhagen Climate Change Initiative	A cross-industry project mandated by the G20 to provide business recommendations on the international climate framework and low-carbon economic recovery
SlimCity	A cross-industry initiative to increase resource/energy efficiency and reduce emissions at the city level in partnership with the World Bank and the International Energy Agency
Partnering Against Corruption (PACI)	Bringing together 143 companies from multiples industries and global locations to fight bribery and corruption, PACI is the leading implementation-oriented, anti-corruption initiative driven by the private sector

Global Agenda Councils

The councils represent an innovation in global cooperation, creating multistakeholder groups to tackle the most important issues on the global agenda. Each council convenes 15-20 leading experts to propose solutions, devise strategies and evaluate the effectiveness of actions. The insight is fed directly into the Forum's activities including the Industry Partnership programme. Based on individual expertise, senior executives from Industry Partners may be invited to participate. Of the network of 70 Global Agenda Councils, the following are particularly relevant to the Energy industry:

<ul style="list-style-type: none"> Sustainable Energy 	<ul style="list-style-type: none"> Energy Security
<ul style="list-style-type: none"> Urban Management
